Galloping into Wellington

Horseback riding in Miami-Dade and Broward counties is an activity that fits in beautifully with the South Florida landscape. From the lush trails of our parks, including Everglades National Park, to the sprawling ranches in South Miami, Davie and Sunrise, horses are an aspect of South Florida luxury living that may not get the attention of more high profile activities.

One aspect of horseback riding is the actual purchasing of these gorgeous animals. Great care and consideration must be given before this rather substantial purchase is made and the reputation of the breeder is a major aspect in the decision making process. One breeder with an impeccable reputation is Dr. Paulo Gaviao Gonzaga, founder of Interagro Farms in Brazil. He and daughter Cecilia breed the highly coveted Lusitano horses and are one of five premier world breeders that make up the Lusitano Collection.
